THE SERIES

“Sculpt Void Color – Ringkern” is the first work in the Sculpt Void Color series. The set-up shared by all the others is described here.

Sculpt Void Color turns Sculpt Void into a structure of light. The sculpture remains invisible; what detaches from its movement – points, and the edges of the cubes and arcs of the spheres as strokes – glows in fluorescent colours. The lights overlap and add up to bands and clouds of light.

Space arises from the light itself: what lies in front glows brighter and warmer, what lies behind becomes darker and cooler. The camera circles the sculpture without pause and sometimes flies right through it. The animation runs as in Render4Sculpt.

Sculpt Void Color is the latest series after Sculpt, Sculpt Color, Sculpt Dark, Sculpt Dark Color and Sculpt Void.

About the sculpture: Render4Sculpt, 126 cubes – two rings of 36 cubes each around a double core of 3 × 3 × 3 cubes. As a 3D print in the Sculpture Garden: “Ringkern”, 25 cm, work number 2026.00.291. Also as Sculpt, Sculpt Color, Sculpt Dark, Sculpt Dark Color and Sculpt Void – Ringkern.
